EDUCATIONS

University of Toronto

Honours Bachelor of Science

Mathematics and Computer Science

Toronto, ON

2018 - 2022

PROJECTS

Agenda

February 2020 - April 2020, ongoing

github.com/yangzi33/agenda

- Android course project. Built using basic java modules on IntelliJ IDEA and Android Studio. My job includes
 - Integrating Android user-interface, including features such as auto-filling while searching calendar events by name.
 - Implementing features that allow users to modify repeating events, as well as operations on user-selected events.
 - Querying and managing app data using SQLite.
- This project emphasizes practical uses of various software design principles, such as SOLID.

VOLUNTEERING EXPERIENCE

MarkUs Volunteer Developer

April 2020 - Present

github.com/MarkUsProject/Markus

- Working as a part of the student developers for the MarkUs project at the Department of Computer Science at the University of Toronto, built using the Ruby on Rails framework.

TECHNICAL SKILLS

Software & Tools : Python, Java, PostgreSQL, SQLite, Ruby, IntelliJ IDEA, Android Studio
Git, JavaScript, R, Microsoft Office.

Frameworks: Rails, Django, Angular.

ESSENTIAL COURSES TAKEN

*Software Design (Java)

*Enriched Introduction to the Theory of Computation

*Multivariable Calculus

Probability and Statistics

Linear Algebra I, II

Introduction to Computer Science (Python)

*: ongoing courses, accurate as March 2020.
